

Automation Specialist

 Location: Maple Grove, MN
 **Full-time | Monday - Friday (8 AM - 5 PM)**

Who We Are

Mechatronic Solutions is a leading distributor of high-quality industrial automation products, solutions, and services in the Upper Midwest. We take pride in our collaborative culture, strong industry expertise, and commitment to delivering innovative automation solutions.

If you're looking for a dynamic, growth-oriented environment where you can make an impact, we want you on our team!

About the Role

We're seeking an Automation Specialist with a passion for industrial automation. Whether you're an experienced professional or just starting your career, this is an exciting opportunity to work with cutting-edge technologies, including motion control, robotics, machine control, and vision systems.

You'll play a key role in helping customers select, design, and implement automation solutions while managing multiple projects and priorities.

What You'll Do

- ✓ **Consult & Design:** Select and size automation, electrical, and mechanical components based on customer requirements.
- ✓ **Technical Sales Support:** Lead pre-sales and post-sales design reviews for value-added assemblies.
- ✓ **Quote Development:** Prepare technical sales quotes for engineered automation systems & solutions.
- ✓ **Customer Support:** Provide troubleshooting and technical assistance.
- ✓ **Project Management:** Oversee value-added assemblies (electrical, pneumatic, extrusion, etc.), including BOM creation, vendor coordination, cost estimation, and documentation.
- ✓ **Process Optimization:** Utilize scheduling software to prioritize and track projects.
- ✓ **Relationship Building:** Establish strong rapport with customers, vendors, and internal teams to address product delivery, quality, and application needs.
- ✓ **Continuous Learning:** Stay up to date on industry trends and product advancements through training.
- ✓ **Regular Updates:** Keep leadership informed on key projects and progress.

What You Bring

- ✓ **Education:** 2-year Technical Degree in Automation (BS in Mechanical or Electrical Engineering is a plus).
- ✓ **Technical Expertise:** Familiarity with electrical components, pneumatics, robotics, motion control, PLCs, controllers, and vision systems.
- ✓ **Detail-Oriented Mindset:** Accuracy in quotes, communication, and project details.
- ✓ **Time Management Skills:** Ability to handle multiple priorities in a fast-paced environment.
- ✓ **Tech Savviness:** Working knowledge of MS Office.
- ✓ **Strong Communication:** Effective collaboration with customers, vendors, and internal teams.

Why Join Us?

- ★ Competitive Salary & Bonus Pay
- ★ 401(k) with Employer Matching
- ★ Comprehensive Health, Dental & Vision Insurance
- ★ Health Savings Account (HSA)
- ★ Flexible Schedule
- ★ Paid Time Off
- ★ Retirement Plan
- ★ Tuition Reimbursement
